## TRAINS RESUME OPERATIONS SOUTH OF CASAS GRANDES; TROOPS GO THROUGH

(Continued From Page One.)

Chihuahua and Ciudad Juarez, across either to Pearson or Casas Grandes. The infantry on train doubtless preceded in arrival the mounted troops.

**Traffic Is Resumed.**  
Regular freight and passenger traffic was opened Thursday and Friday on the Mexico North Western local division, which for over two weeks has been out of commission on account of the bridges destroyed by the insurgents north and south of Guernan. George Butledge, local superintendent of the road, has completed all repairs and with his work train proceeded Thursday to Pearson. He is expected to return at once to Juarez, arriving some time Friday night.  
One freight train departed Thursday from Juarez, and another from Guernan, both loaded with freight for Pearson. Still another freight train departed Friday morning from Juarez for Pearson. With the exception of two cars of coal for San Pedro, all these trains carried shipments of machinery. But a train will depart Saturday morning loaded with merchandise for all points along the line, bringing needed relief to the mining district about San Pedro, Casas Grandes, the Mormon colonies nearby, and Pearson and its settlements.  
The first passenger train left Juarez for Pearson at 1 o'clock Friday afternoon. There were nearly 300 passengers aboard, many of them having come up here for the holidays before the strike was cut and having been forced to remain here until repairs were made.

### AMERICAN MEXICANS CALLED TO REVOLT

Circular Addressed to Mexicans in United States Calls Them to Arms.

The following circular in Spanish, bearing the signature, "Various Chihuahuans," is well explanatory; the circular is addressed "To the Mexican residents in foreign countries, who have not lost their nationality," and says:  
"For 30 years we have suffered servitude. The Mexican government has been corrupted by the honor of the country excessively to our shame. Innumerable assassinations of officials have been committed; there has been created a catechism to degrade us; it has reigned in vast proportions the country's soil; it has deported and sold our brothers of Sonora; it has sold the work of generations into slavery with enormous national debt; it has made incredible massacres, such as that of the laborers of the White river; it has encumbered us with bandits and criminals; it has rent with the hands of its Cossacks, our tricolor standard, and shot at effigies of our heroes, as demonstrated in the manifestation of September 11 last; it has insulted the people through the medium of its organs such as El Imperial and El Debate; it has produced anti-American movements, to bring against the independence the enmity of the United States; it has deprived us of all our rights in the most bloody manner of a nation with the most outrageous political fraud ever recorded in history."

**Denounces Diaz.**  
"The government of general Diaz, traitorous to the fatherland, painting its sons in foreign lands as patriots, is an enemy of humanity, because it is the enemy of democracy, has bought the opinion of writers to fool the world, but the day has arrived when the history of its infamous despotism will be announced and there will be made plain the monstrous embellishment."  
"It has ridiculed all the promises of the Tuxtepecans, has scoffed at all the liberties of the constitution; it has killed in heat, depopulated the congre-

## REBELS BURN BRIDGE DOWN NEAR MADERA

(By C. D. Hagerty, Associated Press War Correspondent.)

Chihuahua, Mex., Jan. 6.—The passenger train which left Madera yesterday, met with another delay at Rosario, where a burned bridge was encountered.

In consequence, a train was sent from here today to Rosario to take on the passengers and mail of the Madera train.  
These are the first passenger trains handled by the railroad otherwise than troop and military supply trains in over three weeks.  
No fighting has been reported.

gations, maliciously laughed at the law, and in the time to be a hero of peace has been a hero of lies, enriching the assassins and impoverishing the community, taking the weight of contributions solely from the poor.  
"The whole nation has risen in arms to depose the malevolent and regenerate itself. This movement is necessary because the people, as they demanded before, will indicate their political direction. This movement will have an unparadiseable exit because the idea of its movement is justice, and liberty its end; always good has conquered evil, the sun the shade, and the people their oppressors."

**Call to Arms.**  
"Come friends and brothers with us to our aid and give your strength to conquer liberty for the 15,000,000 who are bound in servitude, in penance, in

the jails and in misery; for the government is for those who deserve it."  
"Come Mexicans! Remember the heroism and sacrifices of our fathers! Come to the struggle and the triumph will soon be ours and we will make of Mexico a fatherland happy and respectful, give proof that we love our country and our forefathers, and the blood of Cuauhtemoc, Hidalgo, Morales, Juarez and all the grand warriors of the olden days. Come to get dignity in the eyes of the North Americans, the true democrats, get their liberty, especially the right to vote; and above all, come to justify before the world why the miserable dictator has proclaimed a thousand times we are not fit for democracy, but that he is the only one who is able to govern this flock of sheep."  
"Mexicans, the fatherland calls us to its aid!"

**\$500**

is not found to be MORE THAN DOUBLE that of any other paper in El Paso. The examination to cover full year of 1910.

### RUSH TROOPS TO INTERCEPT REBELS

Returned Engineer Says Revoltosos Hold Corral's Former Home.

"The federal troops are being rushed to the eastern line of Sonora and Sinaloa to prevent the march of revoltosos across to join the rebels in western Chihuahua," said an American mining engineer who has just returned from the Fuerte and Yaqui river valleys.  
"The insurgents are practically in possession of Palomos, Son., the former home of Ramon Corral, vice president. By the way, I found the universal sentiment of the people of that country to be most unfriendly toward Corral, more so than anti-Diaz," said the engineer.  
"There did not seem to be any antagonistic feeling against the state government of Sinaloa, as governor Diego Redo is very liberal and much beloved by the people. He was elected by the popular vote and it is said that during the political campaign his opponent should be allowed every opportunity to make his canvass and every vote for him was counted and declared. Nevertheless, governor

Redo is a loyal supporter of the government. The uprising and movement seems to be directed against the federal government and the insurgents are moving eastward to help their brethren in Chihuahua.

**The Fight at Magdalena.**  
"At Magdalena, Son., there was a fight on the 28th of December and the federalists claim that 13 insurgents were killed, but are silent as to the number of federalists that were slain. Three hundred federal troops were sent to Cananea and Nacozari during this time, which shows that things are in a serious condition in northern Sonora. The large mining companies are operating unmolested and I don't think that they will be interfered with even if a real war shall ensue."

**The American Is Treated with the utmost friendliness everywhere.** His main inconvenience is in securing conveyances or transportation. None of the livery stables or corrales will rent a rig. The only way you can get one is to buy it outright.

**A Prospective Stronghold.**  
"Choir, in northern Sinaloa near the west line of Chihuahua is said to be one of the prospective strongholds of the insurgents. This was a fortified town on an elevation which was occupied by the Federal troops during the Maximilian war and it was captured by the Mexicans after a long and bloody battle lasting over a week. It stands on an elevation commanding a view of the surrounding country and is between two rivers. The Orient railroad is graded to within ten miles of this point which is today the supply point for all the great mining camps of western Chihuahua, such as Batopilas, Lluvia de Oro and Chihuahua. It is probably one of the strongest strategic points of the Sierra Madre country from a military standpoint. It was reported at Fuerte that it is now in the hands of the revoltosos and although I had started for that place I had only proceeded a few miles when I was advised that it would be inexpedient to continue the journey."

### REVOLTOSOS IN SOUTHERN MEXICO

Mexican Press Says They Are Bandits—Anyhow They Are Quite Active.

The revolutionists declare that the bands operating in Tabasco and elsewhere are revolutionists; the subsidized press in Mexico City calls them bandits. In either event they are rather active, although the Mexican press says they are being routed. Here is how the Mexican Herald disposes of the matter:

Sunday last Col. Soza, commanding the 24th battalion had an engagement with bandits at San Felipe, Tabasco, defeating them, capturing the town, number of horses and a large amount of food supplies.  
The report was sent by messenger to the port of Santa Ana and transmitted by the telegraph to that point.  
It states that the bandits, numbering between 200 and 300 men were cornered and the fight lasted two hours and 20 minutes, after which the bandits scattered and took to the woods, leaving 15 dead and evidence of a number of wounded. The federal loss was three soldiers killed and 10 slightly wounded.

Col. Oliva, with part of the 18th battalion from Veracruz, and who is marching to join Col. Soza, reported that after the fight at San Felipe, 60 of the bandits, with their arms, surrendered to him.

These two columns are expected to join today and a vigorous pursuit of the bandits will be instituted by Col. Soza and continued until the entire band is either captured or destroyed.  
From a high authoritative source it was stated that the band of robbers which attacked San Juan de la Punta, in the state of Veracruz, is being pursued by rurales. The national guard of the state had been mobilized at Cordoba and has the situation well in hand. No further trouble is expected.

### THE MARCH BEGINS ON GUERRERO TOWN

Chihuahua, Mex., Jan. 6.—It is officially declared that Gen. Navarro has commenced his march from Piedras Blancas toward Ciudad Guerrero and should arrive there in two days. With Col. Diaz on one side of Ciudad Guerrero, and less than 50 miles from there, and Gen. Navarro advancing from the opposite direction, officials in this city say that it begins to look like the beginning of the end for the Maderista movement.

### FIREMAN CRUSHED TO DEATH UNDER ENGINE

Waxahatche, Tex., Jan. 6.—J. C. Fand, aged 25, a fireman on the Texas Central railroad, was instantly killed early this morning when an engine and three cars ran over his body. He was shoveling coal on the first engine dressing the train when the drawheads parted and he fell to the track. The family resides at Graham.

### Doing Their Duty.

Scores of El Paso Readers Are Learning the Duty of the Kidneys.

To filter the blood in the kidneys' duty.  
When they fail to do this the kidneys are sick.

Backache and many kidney ills follow:  
Urinary trouble, diabetes.  
Doan's Kidney Pills cure them all.  
El Paso people endorse our claims.  
Mrs. Blanche Cheavenger, 1233 E. Overland St., El Paso, Texas, says: "For eight years I was subject to attacks of kidney trouble. If I took cold, it invariably settled in my kidneys and caused a dull ache in my back and right hip. There was also a soreness across my loins and I had chills. The kidney secretions were scanty and distressing in passage and caused much annoyance. About a year ago my complaint became worse. Doan's Kidney Pills were finally recommended to me, and procuring a box at Kelly & Pollard's Drug Store, I began their use. They strengthened my kidneys and proved of benefit in every way."  
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.  
Remember the name—Doan's—and take no other.

### HOW TO DESTROY THE DANDRUFF GERM

BY A SPECIALIST.  
That the dandruff germ is responsible for nearly all the diseases which the scalp is heir to, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which has brought relief to scores of sufferers. This prescription has been found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you: 6 ounces Bay Rum, 2 ounces Lavender Compound, one-half drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger tips. If you wish it perfumed, add half a teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. While this preparation is not a dye, it is unequalled for restoring gray hair to its original color.  
**CAUTION:** Do not apply where hair is not desired and be sure to avoid tonics containing poisonous wood alcohol.  
Before publication we presented this prescription to A. E. Ryan & Co., People's Drug Store, this city, and they state that they have filed it many times for their patrons who report most astonishing results from its use.
